

Client 1 is a masculine individual born on January 1, 1999, and holds Ukrainian nationality without additional citizenships. He is currently single, has no children or dependent family members, and has been living in Switzerland for two years under Permit S as a recognized refugee. He does not possess a driver's license. Academically, he holds a Master's Degree in Human Medicine from the University of Ternopil in Ukraine. He demonstrates strong multilingual capabilities, being highly proficient in Ukrainian (C2) and Russian (C2), while his German proficiency is at the B2 level and Swiss German at A1, with English at A2. He has a proven work history both abroad and in Switzerland, having served as a medical intern at the University Hospital in Zürich (December 2024 - January 2025) and at the Cantonal Hospital of Baden, Kanton Aargau (January - February 2025). Additionally, he worked as a first responder at a local Ukrainian hospital from March to October 2021. His soft skills include excellent communication, empathy, advanced interpersonal skills, and a quick learning ability, while his hard skills are highlighted by his certification as a first aid responder. There are no health or cultural restrictions noted. Financially, he requires a minimum monthly income of CHF 2,500 to cover personal expenses and is able to commute up to 1.5 hours from his place of residence by public transport. His integration process includes extensive German language courses, with plans to reach C1 by March 2025. The total recorded cost for previous integration efforts, including language and assessment, amounts to CHF 12,500.
